

### VdS – VdS Schadenverhütung GmbH

[www.vds.de](http://www.vds.de)

Wertheim secure storage units have been tested against mechanical and thermal burglary tools in an independent test institute of VdS Schadenverhütung GmbH in Cologne. All Wertheim products passed the stringent test requirements of the CEN standard EN1143-1 and were certified accordingly in the respective defined resistance values. This means that containers can also be classified and operated in other European countries.

### VSÖ – Association of Austrian Security Companies

[www.vsoe.at](http://www.vsoe.at)

The VSÖ is an independent association of companies and institutions that deal exclusively with security in all conceivable forms. Wertheim products are recognized by the VSÖ. This means that all valuables in a Wertheim secure storage unit in Austria can be insured in accordance with VSÖ guidelines.

### ECB-S – European Certification Board - Security System

[www.ecb-s.com](http://www.ecb-s.com)

ECB-S is a globally recognized certification body for security products. The ECB-S label confirms the compliance of Wertheim products with European standards. The basis for ECB-S certification is a type test in accordance with the European standard EN1143-1 for products for protection against burglary.

### CNPP – Centre national de prevention et de protection

[www.cnpp.com](http://www.cnpp.com)

A2P is the reference certification of the French inspection body CNPP, which guarantees the effectiveness of burglary protection.

### Fire protection EN 15659 LFS 30 | LFS 60

In addition to burglary protection, Wertheim offers models with certified fire protection in all resistance levels.
