### Product Information

**Door Hinge**  
 double-leaf

**Door Opening**  
 Swing-in doors - the doors swing into the side of the safe body when opened, leaving the space in front of the safe completely free. Several safes can be placed next to each other without the open doors obstructing each other.

**Body**  
 Triple-walled design, filled with reinforced, highly resistant filler material

**Door Structure**  
 Three-walled design, filled with reinforced, highly resistant filler material, internal transom space with partially attached drill protection

**Locking**  
 Driven on three sides by solid steel bolts via a boltwork with a base plate, protected by an additional emergency locking mechanism, continuous profile on the hinge side

**Anchoring**  
 Prepared for floor bolting  
 optional: additional holes (position according to customer requirements)

**Cable Drilling**  
 In the ceiling  
 optional: additional drill holes

**IAS Connection**  
 VdS-certified pre-fitting for installation and connection to an intruder alarm system (IAS)

**Colour**  
 Grey: RAL 7037  
 optional: paint finish according to RAL

**Locks**  
 Key lock VdS class 1,  
 Wittkopp 2648, 2 keys (95 mm)  
 Electronic lock VdS class 2,  
 dormakaba Combi B 90,  
 optional: other lock models (main locks or possible additional locks)

**Interior**  
 Optional: Shelf, interior safe, lockers (on request)

**Accessories**  
 Optional: IAS switch set,  
 interior lighting

### Model Overview

Model	Ext. dimensions h×w×d (mm)	Int. dimensions h×w×d (mm)	Volume (l)	Weight* (approx. kg)
<b>BWP1902</b>	1864×1416×688	1730×960×563	935	1250

In addition to the indicated outer depth of the safe, a further 20 mm must be taken into account for fittings.  
 \*The weight specifications correspond to the net weight (without packaging) including lock and the specified shelves.
